Professional Summary

B.Tech CSE (AI & ML) student who has designed, developed, and deployed full-stack web applications – NexusLearn, CampusPro, and CareerMap – using React, Django, and Node.js. Completed a Python developer internship at Elevate Labs building REST APIs and backend features, recognized as Best Performer. Comfortable across the stack, from database design to deployment, and currently applying that foundation to AI-integrated applications using the Gemini API.

Education

B.Tech – CSE (AI & ML)	Parul University, Vadodara	CGPA: 8.12	2023–2027
Intermediate – MPC	Sri Chaitanya College, Guntur	93.9%	2021–2023

Work Experience

Python Developer Intern – Elevate Labs Sep 2025 – Nov 2025

- Built and optimized 5+ backend modules and REST API endpoints in Python for production use.
- Reduced API response time by 25% through query optimization and efficient request handling.
- Awarded **Best Performer** for code quality, consistency, and problem-solving under deadlines.

Projects

CareerMap – AI Career Guidance Platform

TypeScript, React.js, Tailwind CSS, Node.js, Express.js, Drizzle ORM, PostgreSQL, Gemini AI, Recharts

- Built an AI-powered career platform that analyzes resumes, identifies skill gaps, and recommends personalized career paths.
- Integrated the Gemini API to generate personalized roadmaps and learning recommendations for each user.
- Built interactive Recharts dashboards on a Node.js/PostgreSQL backend for real-time career insights.

NexusLearn – AI Powered Smart E-Learning Platform

React, TypeScript, Node.js, Express.js, Firebase, Gemini AI

- Built a full-stack e-learning platform with JWT authentication, real-time Firebase synchronization, and support for 100+ learning resources.
- Integrated the Gemini API to generate personalized learning recommendations for each user.
- Rebuilt the frontend with an interactive 3D UI, improving page interactivity and load performance.

CampusPro – College Management System

Django, Python, MySQL, HTML, CSS, JavaScript

- Developed a college management system with secure authentication, attendance management, student records, and academic workflows.
- Designed the relational database schema in Django ORM for fast lookups and secure data handling.

Technical Skills

Languages	Python, Java, C, JavaScript, TypeScript
Frameworks	Django, Flask, React.js, Node.js, Express.js
Web Technologies	HTML5, CSS3, Tailwind CSS, REST APIs
Databases	MySQL, PostgreSQL, MongoDB, Firebase, Supabase
AI Tools	Google Gemini API, Prompt Engineering
Tools	Git, GitHub, AWS, Vercel, Render, VS Code
Core Concepts	DSA, OOP, DBMS, SDLC, Agile, Authentication, Deployment, Problem Solving

Certifications

Python Essentials 1 — Data Science — AWS Academy Graduate — Mastering DSA

Generative AI for All — Computer Networks and Internet Protocol — Best Performer Award
