Portfolio — GitHub — LinkedIn — LeetCode

Professional Summary

B.Tech CSE (AI & ML) student with hands-on experience designing, developing, and deploying full-stack applications using Python, JavaScript, React, Django, and Node.js. Completed a Python Developer Internship at Elevate Labs, developing backend modules and REST APIs and receiving the Best Performer Award. Experienced in databases, AI-powered applications, RESTful services, and cloud deployment, with a strong foundation in Data Structures, Algorithms, OOP, and DBMS.

Education

B.Tech – CSE (AI & ML) , Parul University, Vadodara	CGPA: 8.12	2023–2027
Intermediate – MPC , Sri Chaitanya College, Guntur	93.9%	2021–2023

Work Experience

Python Developer Intern – Elevate Labs	<i>Sep 2025 – Nov 2025</i>
---	----------------------------

- Built and optimized 5+ backend modules and REST API endpoints in Python for production environments.
- Reduced API response time by 25% through query optimization, database indexing, and efficient request handling.
- Debugged and tested existing software modules, resolving performance bottlenecks ahead of feature releases.
- Awarded **Best Performer** for code quality, consistency, and problem-solving under tight deadlines.

Projects

CareerMap – AI Career Guidance Platform	GitHub	Live Demo
<i>TypeScript, React.js, Tailwind CSS, Node.js, Express.js, Drizzle ORM, PostgreSQL, Gemini API, Recharts</i>		

- Built an AI-powered career platform that analyzes resumes, identifies skill gaps, and recommends personalized career paths.
- Integrated Google Gemini API to generate personalized roadmaps, learning recommendations, and skill insights.
- Developed interactive dashboards with Recharts and a Node.js, Express.js, PostgreSQL, and Drizzle ORM backend to visualize career trajectory data.

NexusLearn – AI-Powered Smart E-Learning Platform	GitHub	Live Demo
<i>React, TypeScript, Node.js, Express.js, Firebase, Gemini API</i>		

- Built a full-stack e-learning platform with JWT authentication, real-time Firebase synchronization, and support for 100+ learning resources.
- Integrated Gemini API to generate personalized study plans and dynamic learning recommendations for users.
- Designed a responsive frontend with interactive 3D elements and optimized the user experience across desktop and mobile devices.

CampusPro – College Management System	GitHub	Live Demo
<i>Django, Python, MySQL, HTML5, CSS3, JavaScript</i>		

- Developed a college management system with secure authentication, attendance tracking, student records, and administrative workflows.
- Designed relational database schemas using Django ORM and MySQL for efficient data retrieval and secure data management.
- Implemented CRUD operations and role-based workflows for managing students, attendance, academic records, and administrative data.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, C, SQL

Core CS: Data Structures & Algorithms, OOP, DBMS, SDLC, Agile, Computer Networks

Backend & Web: Node.js, Express.js, Django, Flask, REST APIs, React.js, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB, Firebase, Supabase, Drizzle ORM

AI/ML: NumPy, Pandas, Scikit-learn, TensorFlow, Google Gemini API, Prompt Engineering

Tools & Cloud: Git, GitHub, AWS, Vercel, Render

Certifications

Python Essentials 1	—	Data Science	—	AWS Academy Graduate	—	Mastering DSA
---------------------	---	--------------	---	----------------------	---	---------------

Generative AI for All	—	Computer Networks	—	Best Performer Award – Elevate Labs
-----------------------	---	-------------------	---	-------------------------------------
