Portfolio — GitHub — LinkedIn — LeetCode

Professional Summary

B.Tech CSE (AI & ML) student with hands-on experience in software development using Python, Java, and modern full-stack technologies. Completed a Python Developer Internship at Elevate Labs, developing backend modules and REST APIs and receiving the Best Performer Award. Skilled in object-oriented programming, data structures and algorithms, database management, web development, and AI-powered applications, with a strong foundation in software engineering principles.

Education

B.Tech – CSE (AI & ML), Parul University, Vadodara — **CGPA: 8.12** — 2023–2027
Intermediate – MPC, Sri Chaitanya College, Guntur — **93.9%** — 2021–2023

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, C, SQL
Core CS: Data Structures & Algorithms, OOP, DBMS, SDLC, Agile, Computer Networks
Backend & Web: Node.js, Express.js, Django, Flask, REST APIs, React.js, Tailwind CSS
Databases: PostgreSQL, MySQL, MongoDB, Firebase, Supabase, Drizzle ORM
AI/ML: NumPy, Pandas, Scikit-learn, TensorFlow, Google Gemini API, Prompt Engineering
Tools & Cloud: Git, GitHub, AWS, Vercel, Render

Work Experience

Python Developer Intern – Elevate Labs — Certificate — *Sep 2025 – Nov 2025*

- Built and optimized 5+ backend modules and REST API endpoints in Python for production environments.
- Reduced API response time by 25% through query optimization, database indexing, and efficient request handling.
- Debugged and tested existing software modules, resolving performance bottlenecks ahead of feature releases.
- Awarded **Best Performer** for code quality, consistency, and problem-solving under tight deadlines.

Projects

CareerMap – AI Career Guidance Platform — GitHub — Live Demo
TypeScript, React.js, Tailwind CSS, Node.js, Express.js, Drizzle ORM, PostgreSQL, Gemini API, Recharts

- Built an AI-powered career platform that analyzes resumes, identifies skill gaps, and recommends personalized career paths.
- Integrated Google Gemini API to generate personalized roadmaps, learning recommendations, and skill insights.
- Developed interactive dashboards with Recharts and a Node.js, Express.js, PostgreSQL, and Drizzle ORM backend to visualize career trajectory data.

NexusLearn – AI-Powered Smart E-Learning Platform — GitHub — Live Demo
React.js, TypeScript, Node.js, Express.js, Firebase, Gemini API

- Built a full-stack e-learning platform with JWT authentication, real-time Firebase synchronization, and support for 100+ learning resources.
- Integrated Gemini API to generate personalized study plans and dynamic learning recommendations for users.
- Designed a responsive frontend with interactive 3D elements and optimized the user experience across desktop and mobile devices.

Publications

CareerMap: A Comparative AI Framework for Resume Parsing, Skill Gap Analysis, and Intelligent Interview Assistance — Paper — Certificate
International Journal of Computer Science Engineering Techniques (IJCSE), Vol. 10, Issue 4 (ISSN: 2455-135X) Aug 2026

- Proposed an AI-driven career preparation framework integrating resume parsing, skill gap analysis, and intelligent interview assistance.
- Formulated NLP models to extract candidate competencies and benchmark readiness against industry profiles.

Certifications

AWS Academy Graduate — Python Essentials 1 — Mastering DSA — Data Science
Generative AI for All — Computer Networks and Internet Protocol — Salesforce Administrator & App Builder
